

# Paraguay photovoltaic energy storage project completed

### **Overview**

Does Paraguay have a grid-scale energy storage project?

The capital of Paraguay, Asuncion. The country has not announced any gridscale energy storage projects to-date. Image: CC / Mariano Mantel. Investment firms PASH Global and ERIH Holdings have formed a joint venture (JV) to develop utility-scale solar and battery storage projects in Paraguay.

How can Paraguay benefit from solar energy?

Solar energy, in particular, is seen as a vital addition, taking advantage of Paraguay's abundant sunlight to reduce pressure on its hydropower resources. The government also plans to harness bioenergy through biomass and biogases, tapping into organic waste and agricultural byproducts as fuel sources.

Can Paraguay use natural gas as a transitional energy source?

In addition to its focus on renewables, Paraguay is also looking to natural gas as a transitional energy source. The country's new energy policy includes a project to integrate natural gas into its energy matrix. This would provide a reliable alternative to hydrocarbons while renewable technologies continue to scale.

Is the grid-scale battery storage market in Paraguay about to change?

Like most of Latin America, the grid-scale battery storage market in Paraguay is at a relatively early stage. However, recent moves by the government show that may be about to change.

What is Paraguay's Energy Vision?

A critical component of Paraguay's energy vision is hydrogen fuel production. The country's rivers, especially the Paraná and Paraguay, are vital trade routes and key to the country's energy strategy. Approximately 80% of Paraguay's foreign trade passes through these rivers, providing a direct link to

the Atlantic Ocean.

Can Paraguay diversify its energy matrix and reduce its reliance on hydrocarbons?

The country's success in diversifying its energy matrix and reducing its reliance on hydrocarbons could have far-reaching implications, not just for the region, but for the global energy landscape. The future of energy in Paraguay is bright—and it is powered by the sun, the wind, and the innovative spirit of its people.

### Paraguay photovoltaic energy storage project completed

## PASH and ERIH target 40MWh of battery storage in Paraguay

Investment firms PASH Global and ERIH Holdings have formed a joint venture (JV) to develop utility-scale solar and battery storage projects in Paraguay.
