

Polish Electricity Emergency Energy Storage Company

Overview

Polish utility PGE (WSE:PGE) plans to build over 80 energy storage facilities with a total capacity exceeding 10,000 MWh by 2035 in order to meet the challenge of the growing electricity production from renewable sources. Energy storage battery. Photo by Anna VasilevaWhat is Polish Energy Storage Association?

Polish Energy Storage Association – together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Is Poland a key player in Europe's energy storage sector?

Poland is emerging as a significant player in Europe's energy storage sector. The recent capacity market auctions in December 2024 highlighted a substantial shift towards BESS, with approximately 2.5 GW secured by new generation capacity market units, predominantly Li-ion energy storage projects.

Does Poland need a state aid package for energy storage?

A panel discussion on the Polish market at the recent Energy Storage Summit CEE in Warsaw. Image: Solar Media The European Commission (EC) has approved a €1.2 billion (US\$1.32 billion) state aid package for Poland to support the deployment of electricity storage facilities.

What is PGE's Energy Storage plan?

PGE Group has laid down ambitious plans for energy storage deployment over the next ten years. In a bid to tackle the challenge of the growing electricity production from renewable energy sources, the Polish utility is looking to add more than 10 GWh of energy storage capacity by 2035.

Is a 2023 capacity auction a big step forward for Polish energy storage?

It looks to be a big step forward for the Polish energy storage market, which is already advancing into a leading position among Central and Eastern European markets, driven forward by a 2023 capacity market auction in which 1.7GW was awarded to energy storage bids.

How does Europe support energy storage?

Over the last year or so, the European Union has approved state aid schemes to support energy storage deployments in countries. These include a €103 million package of direct grants in Romania in March 2023, €150 million for renewables and storage in Slovenia and €1.1 billion for Hungary a couple of months later.
