

Polish Power Plant Power Generation Company BESS

Overview

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

Does PGE Group have a Bess project in Poland?

PGE Group has selected LG Energy Solution to provide the BESS for a 263MW/900MWh project it will build in Poland.

Will PGE build a battery energy storage system in Poland?

State-owned power company PGE Group has obtained regulatory approval to build a 200MW/820MWh battery energy storage system (BESS) in Poland. The project, called CHEST (Commercial Hybrid Energy Storage), will target a capacity of no less than 200MW and a power output of 820MWh, making it one of the largest in Europe, PGE Group said.

How many GW of energy capacity has Bess been awarded?

Following information from Jan 5th, 2024 of the President of Energy Regulatory office on announcement of capacity market auction final results, the company was awarded 1.2 GW of capacity for its wholly owned six BESS projects, which represent over 70% of the total capacity awarded to BESS technology.

Should Bess invest in the Polish capacity market?

Moreover, preferential or market loans could finance up to 100% of eligible costs. This optimism is at the same time being overshadowed by the capacity market developments. Until recently, the Polish capacity market provided a very attractive source of stable revenues for BESS, offering 17-year contracts.

What happened in Poland's political and regulatory space?

The last several months in the Polish political and regulatory space have been eventful from the perspective of BESS and energy markets. Only this week brought the creation of the new Ministry of Energy .
