

Polish industrial energy storage equipment

Overview

What is Polish Energy Storage Association?

Polish Energy Storage Association – together we are building a modern, solid and secure electric power system in Poland. We are integrating innovative companies and organisations involved in developing the power sector and environment protection, we are promoting and supporting energy storage facilities.

Is Poland moving towards battery energy storage systems (Bess)?

As expected, Poland's latest capacity market auctions have highlighted a significant shift towards the battery energy storage systems (BESS) beside the fact that the de-rating factor has been significantly decreased.

Who is the operator of the energy storage facility?

The EOZE will be the operator of the energy storage facility. Hitachi and Showa Denko Materials – responsible for designing, producing and implementing the SPS system and the battery energy storage system (BESS).
