

Rural photovoltaic energy storage in the United Arab Emirates

Overview

While being a major oil producing country, the United Arab Emirates (UAE) has taken steps to introduce solar power on a large scale. However, solar power still accounts for a small share of energy production in the country. The country was the 6th top carbon dioxide emitter per capita in the world in 2009.

Abu DhabiIn 2013, the , a 100- (MW) (CSP).
