

Selling solar panels and photovoltaic components

Overview

In this guide, we'll cover everything you need to know about selling solar panels, including the how, the why, and the where to do it. Let's get started. Why bother selling solar panels in the first place?

.

Should you sell solar panels?

Solar panel sales have grown significantly in recent years due to the increase in public awareness of the environmental and economic benefits of solar energy. If you are selling solar panels, there are a few things you need to keep in mind to be successful:.

Where to sell solar panels?

The major solar distributors sell to all types of solar installers — residential, commercial, and utility-focused. Some of the biggest distributors in the U.S. include BayWa r.e., Wesco, and CED Greentech. Now that you know the why and the how, it's time to get in front of customers. Here are great 5 places to sell solar panels. 1. Door-to-door.

How to sell solar products & services?

Going door to door to do solar sales pitch to sell your products and services is called door to door sales process. This is one of the most effective ways to sell solar products. It is also one of the most difficult and time-consuming methods but can be very rewarding.

Are solar panels a hard sell?

Thanks to the rising popularity of solar energy in the U.S., it's not really a hard sell anymore. In fact, a Pew Research Center survey from 2019 found that 46% of U.S. homeowners had given serious thought to adding solar panels to their homes in the past year. Want to sell more solar panels?

EagleView can help you.

Should you sell your solar energy business?

This means selling to them is typically easier because you don't have to sell them on solar energy itself, freeing you up to focus on the value your particular business brings compared to the competition. One of the best ways to approach this strategy is by joining the communities and providing your insight and expertise for free.

Where can I sell solar energy online?

Here's a list of popular online forums that you can check out: Reddit Solar News, Reddit Solar Energy, and Reddit Solar Power. 3. Local Google and Facebook Ads Another good place to sell solar online is through Google and Facebook ads. Using these platforms, you can run ads aimed at people actively shopping for solar.
