

Seychelles Solar Grid-Connected System

Overview

Where are the solar power plants located in the Seychelles?

The facilities include the 5MW solar PV plant located in Ile de Romainville, a 3.3 MWh energy storage system located on Mahé and a 33kV system that allows for the safe and stable supply of electricity from the PV power plant to the main island of Mahé. This system helps increase the resilience of the national grid of the Seychelles.

How does solar PV work in the Seychelles?

Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month. Further details on how solar PV works in the Seychelles please see our Frequently Asked Questions page.

Who can install photovoltaic systems in Seychelles?

Contact our professional staff for a comprehensive project proposal. ESS has been installing photovoltaic (PV) systems in Seychelles since 2012 and provides renewable energy products and energy efficiency consultancy. © 2019 Energy Solutions Seychelles. All Rights Reserved. Powered by Com & Click.

How can I use solar energy in Seychelles?

Certified by Seychelles Energy Commission Approved by PUC Use solar energy independently by using battery storage or a hybrid system. Full range of maintenance and monitoring services available for your solar energy system. Voltage optimisation and power factor correction devices.

How does a hybrid system work in Seychelles?

A hybrid system uses both the grid and batteries. Currently, Seychelles has a net metering policy where electricity produced by your solar photovoltaic PV

systems is recorded to a separate meter. PUC then credits your electricity bill at the end of each month.

What is a grid-connect solar photovoltaic PV system?

A grid-connect solar photovoltaic PV system are installed at your premise and use the PUC electrical grid network to feedback electricity produced by your system. For stand-along, off-grid or battery back up system PV systems which are independent of the PUC network and use battery storage see our off-grid solar PV page.

Seychelles Solar Grid-Connected System

Solar energy systems company Seychelles

Sine 2012,ESShas been installing rooftop solar photovoltaic PV systems in the Seychelles. Therefore,we have experience with grid-tied roof top solar PV system. Also we are an ...

WhatsApp Chat

Technical Specifications for Grid-Connected Photovoltaic ...

These Technical Specifications developed by the project and promulgated by the Seychelles Energy Commission (SEC) are intended to ensure import and installation of PV systems that ...
