

Slovenia communication base station energy storage system hybrid power supply

Overview

The wind-solar-diesel hybrid power supply system of the communication base station is composed of a wind turbine, a solar cell module, an integrated controller for hybrid energy management for communication, a battery pack and an outdoor incubator for the battery.

Slovenia communication base station energy storage system hybrid

Intelligent hybrid power system

The hybrid power supply has the characteristics of wide voltage input, high-efficiency modules, support for mixed insertion, and centralized monitoring with multiple interfaces of RS485 and ...
