

Slovenia solar panel standards

Overview

How many solar power plants are there in Slovenia?

In 2022, 12,698 solar power plants with a total capacity of 227.6 megawatts (MW) were connected to the grid in Slovenia and 18,034 solar power plants with a total capacity of 411.8 MW in 2023. In total, 49,092 solar power plants with a total capacity of 1,104.5 MW were in the system on 31 December 2023.

How much solar power does Slovenia have in 2024?

Slovenia installed 298.8 MW of solar capacity in 2024, according to the Slovenian Photovoltaic Association (Združenje slovenske fotovoltaike). Director Nina Hojnik told pv magazine the total includes 191.5 MW of residential installations, 100.8 MW of commercial and industrial (C&I) projects, and 6.5 MW of utility-scale capacity.

Does Slovenia have a reliable electricity grid?

Slovenia boasts a generally reliable electricity grid with a robust transmission network that ensures uninterrupted and high-quality power delivery. However, grid reliability can be impacted during winter periods due to increased energy demand and reduced solar power output. 4 We can help you start your own solar module production company.

How much does solar energy cost in Slovenia?

In Slovenia, the average annual solar energy yield in Slovenia is around 1038 kWh/kWp. 2 The average cost of electricity for household consumers in Slovenia is approximately \$0.2247 per kWh, while the cost excluding taxes is around \$0.1819 per kWh. 3.

How much sun does Slovenia get a year?

Slovenia typically enjoys between 1,330 and 2,976 hours of sunshine each year, though this amount can change depending on the location and time of

year. 1 In Slovenia, the average annual solar energy yield in Slovenia is around 1038 kWh/kWp. 2.

Will solar panels get a construction permit in 2023?

No fines are envisaged, but the investors obligated to set up solar panels who will not follow the new rules will not get a construction permit. The government regulation is based on a 2023 law designed to expedite the deployment of renewable electricity generation facilities.
