

Small solar power generation system in Turkmenistan

Overview

High solar activity in Turkmenistan makes small-scale solar energy a costeffective way to provide electricity to hard-to-reach areas. In the vast areas of the central Garagum desert, where power is often supplied by diesel generators, solar panels can be an economically viable alternative.

Small solar power generation system in Turkmenistan

Turkmenistan: Integrated Renewable Energy Solutions to ...

The TA will focus on three outputs: (i) preparing a road map and pre-feasibility studies for solar energy generation and distribution, (ii)/pilot testing small and innovative solar energy projects, ...
