

Solar Wall System

Overview

The SolarWall technology is a solar air heating system that uses the power of the sun to heat your building's ventilation air. It minimizes energy consumption, heating costs and carbon emissions throughout the heating season.

Solar Wall System

Solar Walls, Trombe Walls, & Passive Solar Heating 101

Solar walls, glazed solar collectors, and so-called Trombe walls are all different types of passive solar heating technologies based around the use of materials meant to ...
