

# Solar photovoltaic module area

### **Overview**

Panel Dimensions: Standard solar panels are typically around 1.7 meters by 1 meter (1.7m²). Total Surface Area: Multiply the number of panels by the area of one panel. Panel Area:  $1.7m^2$  per panel. Total Surface Area: 21 panels x  $1.7m^2 = 35.7m^2$  required.

### Solar photovoltaic module area

### **Photovoltaic Modules**

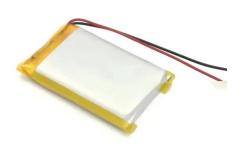

3.1 Photovoltaic modules A photovoltaic module is an electric direct current generator which consists of a variable number of photovoltaic cells electrically connected. The mono-crystalline ...
