

# Spain high-efficiency photovoltaic module project

#### **Overview**

Located in Almonte (Huelva), this groundbreaking shared self-consumption project delivers renewable electricity directly to more than 3,500 local users – making it the largest solar community in Spain by numbers of users – without requiring any upfront investment.

#### Spain high-efficiency photovoltaic module project

### JinkoSolar and ib vogt Partner to Deliver High-Efficiency Tiger ...

Developed by ib vogt, the large-scale project spans approximately 666 hectares in the Castile and León region and comprises four utility-scale solar parks, one of the country's largest solar ...
