

# Sri Lanka Energy Storage Station Project

## **Overview**

The Maha Oya Pumped Storage Power Station is a 600 being developed in the and areas of . Upon completion, it will be the country's first facility, and one of the in terms of nameplate capacity. The Maha Oya facility is designed to store excess renewable energy from solar and wind sources, thus creating supporting infrastructure for Sri Lanka's target of generati.

ECONOMYNEXT – Sri Lanka's state-run Ceylon Electricity Board said it has begun seeking funds to build a 600 MegaWatt pumped storage plant to integrate solar and wind energy and maintain grid stability. The CEB wanted to tap multilateral lenders to reduce electricity sales prices.
