

Sudan Energy Storage Project Quality Assurance

Overview

Which sector is the largest user of electricity in Sudan?

The residential sector constitutes 60% of the electricity consumption in Sudan and therefore is the largest user segment. Low price provides almost no incentive for households to conserve energy and wasteful use of power is observed. 9. Sudan is facing power crisis as a result of severe demand-supply imbalance.

Who owns electricity in Sudan?

The Electricity Regulatory Authority (ERA) is also part of the MoEP. Most of Sudan's electricity generation is publicly owned, except for some thermal generations in isolated grids and emergency powership rental, which are operated by Independent Power Producers (IPPs).

What is SETAP & how will it impact Sudan?

The proposed SETAP will increase the availability of electricity to gridconnected users, providing off-grid solar solutions for households, productive users and public institutions will pave the path for Sudan's clean energy transition through enhancing readiness of renewable energy projects.

How much electricity does Sudan have?

Sudan's access to electricity stands at approximately 54% (Tier 1 and above), comprising of about 32% connected on-grid to SEDC, 14% connected to standalone diesel-based isolated grids and 8% to stand-alone solar PV systems (with batteries). This means about 20 million people are without access to electricity.

What is the electricity tariff in Sudan?

The electricity tariff in Sudan is one of the lowest in the world. With a recent fourfold revision in January 2021, the average tariff has increased to US\$ 0.023/kWh at the market exchange rate, but remains exceptionally low in

comparison with tariffs in other Sub-Saharan African countries.

What are the transmission and distribution losses in Sudan in 2021?

In 2021, transmission and distribution losses in Sudan were at at 30 percent (25 percent distribution losses and 5 percent transmission losses). The bill collection rate is 93 percent, attesting to the quality of commercial management and the universal use of prepaid meters.
