

# Taipei power generation container manufacturer

### **Overview**

Where are Delta energy storage units pictured in Taipei?

Delta Electronics Inc energy storage units are pictured outside the company's office in Taipei's Neihu District yesterday. "Delta is a vertically integrated provider of power storage solutions from the design to the software," Ai said.

Does Delta's container-sized battery solution meet Taipower's requirements?

Ai said Delta's container-sized battery solution is the first such unit to fulfill Taipower's requirements and specifications. The three container-sized 7.5 megawatt (MW) battery units are undergoing tests before being shipped to customers, Ai said.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Will a Taoyuan battery make a lot of money?

The three container-sized 7.5 megawatt (MW) battery units are undergoing tests before being shipped to customers, Ai said. The batteries would help make Taipower's supply smoother and help the operators generate revenue, Ai said, adding that Delta's own 5MW facility in Taoyuan makes "as much as NT\$100,000 a day" through the Taipower platform.
