

## Telecom Energy Storage Container Investment Policy

#### **Overview**

Which telecommunications networks are deploying energy storage?

Image: CC. This year has seen major energy storage deployment plans announced by telecommunications network operators in Finland and Germany, and substantial fundraises by ESS firms targeting the segment. Finlands's Elisa announced a 150MWh rollout across its network in February while Deutsche Telekom began a 300MWh deployment the same month.

Which telecommunications companies are investing in energy storage?

Finlands's Elisa announced a 150MWh rollout across its network in February while Deutsche Telekom began a 300MWh deployment the same month. This year has also seen US\$50 million fundraises by Caban and Polarium, both energy storage system (ESS) solution providers which have made the telecommunications segment a key focus.

Do telecommunications networks need backup power?

Telecoms networks have a strong need for backup power. Image: CC. This year has seen major energy storage deployment plans announced by telecommunications network operators in Finland and Germany, and substantial fundraises by ESS firms targeting the segment.

What is the Energy Storage Summit USA?

The Energy Storage Summit USA is the only place where you are guaranteed to meet all the most important investors, developers, IPPs, RTOs and ISOs, policymakers, utilities, energy buyers, service providers, consultancies and technology providers in one room, to ensure that your deals get done as efficiently as possible.
