

# Thailand container wall panel wholesale

## Overview

---

We specialise in converting Containers into a number of different applications from single houses to large multi container complexes. Containers can be linked together or stacked to create a whole range of va.

What is KSS & container Kings Thailand?

KSS and Container Kings Thailand work together to manufacture, install and rent various container and modular buildings. Modular Building Or Converted Container, What's The Difference?

Modular units are slightly different from container units as they are normally made from a steel framework and ISO Sandwich Panel Walls.

What is a modular wall panel?

These wall panels are 2 pieces of steel which have an insulation material such as PS or PU Foam or Rockwool in the middle to form a "Sandwich" Panel. Modular Units are also normally larger than a standard container. A typical size would be 6m x 3m or 12m x 3m.

Who makes isowall sandwich panels in Thailand?

Take a quick tour of sandwich panel manufacturers Thailand. Founded in 1978, Thai Isowall manufactures and exclusively distributes ISOWALL insulation panels. Isowall sandwich panels have various certifications and approval from FM, IAF, DAKKS, ISO 9001:2008, TUV, SIRIM, SIRIM QAS, and UNDP.

What is a container home?

Container Homes, also known as ISO Container Homes, can be created out of any type of shipping containers to make multiple units or single houses at relatively low prices compared to constructing a new building. We specialise in converting Containers into a number of different applications from single houses to large multi container complexes.

What is a storage container house?

Once considered undesirable housing units for those who simply couldn't afford the traditional brick and mortar option, storage container houses have become the hot new trend. Container homes can be arranged in almost any combination and can also incorporate swimming pools, saunas and games areas.
