

The first flywheel energy storage project

Overview

Construction on the Dinglun project started in June 2023 and it was the first flywheel energy storage project in China. The previous largest projects in the world are 20MW systems in New York (Beacon Power) and Pennsylvania (Hazle Township), US, owned by Convergent Energy + Power.

The first flywheel energy storage project

China Connects 1st Large-scale Flywheel Storage to Grid: ...

China has successfully connected its 1st largescale standalone flywheel energy storage project to the grid. The project is located in the city of Changzhi in Shanxi Province. ...
