

The first sodium-ion energy storage system

Overview

Peak Energy shipped out its first sodium-ion battery energy storage system, and the Burlingame, California-based company says it's achieved a first in three ways: the US's first grid-scale sodium-ion battery storage system; the largest sodium-ion phosphate pyrophosphate (NFPP) battery system in the world; and the first megawatt-hour scale battery to run entirely on passive cooling – no fans, pumps, or vents.

The first sodium-ion energy storage system

Sineng Electric launches world's largest sodium-ion ...

Sineng Electric's 50 MW/100 MWh sodium-ion battery energy storage system (BESS) project in China's Hubei province is the first phase of ...
