

# The largest energy storage power station

#### **Overview**

This is a list of energy storage power plants worldwide, other than pumped hydro storage. Many individual energy storage plants augment electrical grids by capturing excess electrical energy during periods of low demand and storing it in other forms until needed on an electrical grid. The energy is later.

• • • • .

. . . .

The Moss Landing Energy Storage Facility, the world's largest lithium-ion battery energy storage system, has been expanded to 750 MW/3,000 MWh. Moss Landing is in Monterey County, California, on the site of a gas-powered plant.

#### The largest energy storage power station

### Ludington's Liquid Power: One of the Largest Batteries in the World

This man-made lake is part of the Ludington Pumped Storage Plant, a pumped storage hydropower facility that can be likened to a giant battery--one that moves water ...
