

Unit price of solar power generation and energy storage in the Democratic Republic of the Congo

Overview

Does the DRC have solar power?

Solar In addition to hydropower, the DRC possesses significant potential for solar energy, offering a potential of 70 GW with noticeably high solar radiation averaging 6 kWh/m 2 /day.

Should solar investors invest in DRC?

Several solar investors have explored the DRC market and are in the process of signing MOUs with the government. The GDRC seeks firms with financing and experience to collaborate with local and parastatal firms to build these power-generating facilities.

How has DRC benefited from a grant-making and concessional financing scheme?

DRC has benefited from several grant-making and concessional financing schemes that have helped to unlock private capital for the off-grid solar sector. In 2021, the Swedish investment platform (Trine) en-tered a partnership with Altech, a leading company in the distribution sustainable energy products and ser-vices18.
