

# United Arab Emirates Communication Base Station Wind Power Project

#### **Overview**

Does the United Arab Emirates have a wind project?

The United Arab Emirates (UAE) has officially completed its first commercialsized wind project – and controversy has surfaced about its fossil fuel side deals ahead of COP28. The 117.5-megawatt (MW) "UAE Wind Program" project, inaugurated in early October, spans four locations.

Who built the UAE wind program?

It was constructed by China's state-owned Power Construction Corporation of China (PowerChina), which announced the project's completion today, and Beijing-based global wind turbine maker GoldWind. Masdar says the UAE Wind Program can power more than 23,000 homes annually.

What is the UAE wind program?

On behalf of the UAE President, Khaled bin Mohamed bin Zayed, Crown Prince of Abu Dhabi, has inaugurated the UAE Wind Program. Developed by Masdar, the project furthers strengthens decarbonisation efforts and accelerates progress towards achieving UAE net zero emissions by 2050. pic.twitter.com/nwEDRxMX5u.

Where is Abu Dhabi's wind program located?

It spans the following four locations: Al Halah in the emirate of Fujairah. Developed by Abu Dhabi Future Energy Company (Masdar), the Wind Program marks a new milestone in introducing utility-scale wind power to the UAE's energy mix. It leverages advances in technology, material science and aerodynamics to capture low wind speeds on utility scale.

Why is the UAE launching a wind turbine project?

The project is also creating a foundation of critical scientific wind data, which will form the basis of the UAE's next phase of development.

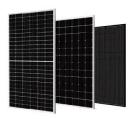

Is the UAE doing a wind project ahead of cop28?

The UAE has officially completed its first commercial-sized wind project – and controversy has surfaced about its fossil fuel side deals ahead of COP28.
