Overview

Does Venezuela have a solar panel factory?

The engineer says: “It’s incredible, but in Venezuela, in the industrial region of Paraguaná, we have a solar panel factory, but it doesn’t have any staff. There’s materials in the storage facilities to produce for three years and supply the entire country with alternative systems.

Can you make it big in Venezuela's solar market?

If the answer is yes, you can make it big in Venezuela’s budding solar market. Venezuela enjoys a healthy presence of residential and commercial solar equipment manufacturers and distributors. These entities specialize in a wide variety of equipment including, solar panels and inverters.

What is Yingli's first solar power plant in Venezuela?

This power plant is Yingli’s first large-scale project in Venezuela: until recently, the Venezuelan market was concentrated in off-grid systems of 25 kilowatts (kW) and smaller, typically located in isolated regions. As the country’s inaugural PV power plant, it contains more than 4,400 multicrystalline YGE Series solar panels.

Should Venezuela be filled with photovoltaic panels?

Venezuela should have been filled with photovoltaic panels a long time ago. But the electrical emergency is opening up a small path for this energy source, and the state hasn’t taken advantage of this technology yet.

Does Venezuela have a solar system?

Fortunately, the increasing electricity demand forced the Venezuelan government to increase its renewable energy adoption efforts. As of 2019, Venezuela’s installed solar capacity stood at 5.32 Megawatts. In June 2021, Venezuelan authorities brought the first grid-connected photovoltaic system online.

Can Yingli's power a hybrid plant in Venezuela?

A 1.1-megawatt, diesel-solar hybrid project at Los Roques in Venezuela — touted to be the largest of the country — has been successfully operating on Yingli's panels since May. The entire operation of the plant is being powered by Yingli's panels.
