

What are the new battery cabinets launched in Southeast Asia

Overview

What is Singapore's biggest battery storage project?

Singapore has surpassed its 2025 energy storage deployment target three years early, with the official opening of the biggest battery storage project in Southeast Asia. The opening was hosted by the 200MW/285MWh battery energy storage system (BESS) project's developer Sembcorp, together with Singapore's Energy Market Authority (EMA).

Are battery energy storage systems revolutionizing energy solutions?

In an article featured on The Business Times, Rodrigo Hernandezvara, Head of Solar C&I at ENGIE highlights how Battery Energy Storage Systems (BESS), combined with renewable energy sources like solar power, are revolutionizing energy solutions for the region.

Who owns PT Contemporary Amperex Technology Indonesia battery?

The battery factory in Karawang, occupying 43 hectares, is operated by PT Contemporary Amperex Technology Indonesia Battery (CATIB), a joint venture between IBC and CBL, a subsidiary of global battery giant CATL. The facility is expected to reach an initial capacity of 6.9 GWh in the first phase, increasing to 15 GWh in the second phase.
