

Which 5G base station is best in Lithuania

Overview

Does Telia have 5G in Lithuania?

. Telia, the leading Nordic and Baltic digital communications company, through an exclusive partnership with Ericsson, has reached a significant milestone of achieving 99 percent geographical 5G coverage in Lithuania.

Does Lithuania have 5G?

Lithuania is one of the leaders in the European telecommunications market but until now the country did not have 5G diamond in its crown. However, the situation changes, as about 65 percent of Lithuania's territory and 80 percent of the population will have Telia Lietuva 5G signal starting from today.

What is 5G Massive MIMO radio?

Ericsson's 5G Massive MIMO radio has been instrumental in this achievement. The antenna-integrated radio (AIR) solution, specifically AIR 3268, with its smaller and lighter design, offers increased bandwidth and higher capacity, enabling Telia to provide lightning-fast and reliable 5G connectivity across the entire country.
