

# Wind power distribution of 5G communication base stations in Croatia

#### **Overview**

The first wind farm was installed on the island of in 2004. In 2006 another farm opened near . On July 1, 2007 the enacted five bylaws on incentives to electricity generation from renewable resources, including . Currently in Croatia there's a total of 364 wind turbines which generate total of 970.15 MW or electric energy, but with new turbines coming on-line all the time, it is expected that by mid 2020.

#### Wind power distribution of 5G communication base stations in Croa

#### 3G / 4G / 5G coverage in Croatia

Discover detailed mobile internet coverage maps for all operators. Check 2G, 3G, 4G, 5G, and fiber availability in your area and worldwide.
