

Yileke photovoltaic panel manufacturer

Overview

Who is Yili PV?

YiLi Pv has fifteen years of experience in the research and development of solar module production equipment. We have an excellent understanding of the characteristics of each solar panel's raw material. We can train you from a novice who does not understand any solar module production technology to an experienced solar panel production expert.

Why should you choose Yili PV?

YiLi Pv has an excellent raw material supplier system, including solar cells, solar ribbons, Eva, back sheets, and solar glass. This can help customers purchase solar module raw materials of outstanding quality and affordable prices in the early stages. You can start your photovoltaic business with our 5-15MW manual production line.

What size solar cell is compatible with Yili PV?

Compatible cell size: 156-210mm. uses an advanced and high-accuracy six-axis robot combined with a high-efficiency automatic solar string layup system independently developed by YiLi Pv to meet customers' automatic layout needs for different solar cell strings. At the same time, it has a highly cost-effective advantage. 1.

What is Yili PV laminator?

Solar panels laminated by YiLi Pv laminator can accurately meet the process requirements of raw materials. Advanced process standards extend the service life of solar panels and effectively reduce the defective rate and damage rate. It can be suitable for cutting cells of 30mm to 156.75mm soldering. 1. Real capacity could reach 1800pcs/hour. 2.

How does Yili PV work?

YiLi Pv uses vacuum pumps and thermal oil heating systems imported from

Germany, and it cooperates with YiLi Pv's self-developed solar laminator automatic temperature control recognition system and Al automatic adjustment parameters. Solar panels laminated by YiLi Pv laminator can accurately meet the process requirements of raw materials.

What is Yili PV solar string layup system?

uses an advanced and high-accuracy six-axis robot combined with a high-efficiency automatic solar string layup system independently developed by YiLi Pv to meet customers' automatic layout needs for different solar cell strings. At the same time, it has a highly cost-effective advantage. 1. Use visual positioning and String EL detection. 2.
